In gaining altitude you will reach Saint-Martin before descending upon the village of Lescun, renowned for its famous glacial cirque. The first Pyrenean peaks of more than 2000m altitude like Pic d'Anie will appear. Before that, you will also discover the Iraty forest, the Haute Soule, the Holzarté gorges and its famous footbridge. After checking into your hotel you may choose to do a walk in the surrounding area or to visit the village, a chance to discover the many delights of this seductive region.

Explore St Jean and its surroundings

Walk through the Irouléguy vineyards and the village of Ispoure, in the surroundings of the capital of the Basse Navarre - a region with many touristic assets.

Kurutxamendi loop

The Kurutxamendi is a small hill dominating Saint-Jean-Pied-de-Port. This pedestrian loop can be a pleasant short and easy stroll at the side of the pilgrims who go to St Jacques de Compostela. Despite the low altitude, you will have good visibility over the peaks of Navarre, and even Labourd.

- Distance : 8km, duration : around 3h, altitude gain : +280m, descent : -280m.
- Distance : 5km, duration : around 1h30, altitude gain : +145m, descent : -145m

Day 2 : from Saint Jean Pied de Port to Phagalçette

The GR10 stays in the Pays Basque for approximately 170km of walking, winding its way through tiny villages but keeping to the French side. The trail heads out in an Easterly direction from St Jean towards the nearby hills. Following the deepening valley past small, isolated farms, sparkling mountain streams and steep green slopes. You get glimpses of the higher Pyrenean peaks to the East. The culture is rural and distinctly Basque. As you pass through the villages, such as Caro and Estérençuby, you can soak up the ambience. Stop at Estérençuby for the comfort version, otherwise continue the hike to Phagalçette.

Indeed, the GR10 crosses several passes, allowing a diversity of enchanting landscapes for the walker eager for emotions. After the discovery of the Occabé Cromlechs, a real temple of the sun with a 360° view, the arrival in the Iraty forest, known for its 2,500 hectares of majestic forests, will be a pure moment of change of scene.

- Distance : 20,5km, duration : around 7h45, altitude gain : +1435m, descent : -715m.

Day 4 : from Iraty to Logibar

In case of bad weather, an alternative route can be taken through the village of Larrau.

To arrive at the hamlet of Senta, you will penetrate the valley of Barétous, this is part of the second region you will discover called the Béarn. It is a region that functions to the rhythm of nature's calendar and rural pastoral life. As this hike is quite long, a shorter version is also proposed.

•WHAT TO BRING AND PACK**Your main luggage:**

For logistical reasons, we ask you not to bring more than one item/person. Its weight should not exceed 12kg - 15kg.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.
